***Urgent recruit of carrier consultants in a reward system to overturn
common sense of the recruiting industry.***

*ARK Co., Ltd. achieves a stable growth as a headhunting style recruiting agency and now, we are looking for a carrier consultant with a compensation that is about double of the amount of the major foreign-affiliated recruiting agency. ARK will maximize your salary based on your earnings. No **intermediate exploitation**.*

ARK is the company for carrier consultant so please contact us!!

The measures that a company executes under recession: a personnel reduction.

As they stop the recruiting at the same time, recruiting industry is an industry that is weak for recession.

Under such circumstances, most sales are exploited for office expenses and a large amount of compensation of the boss who does not have sales.

However, in this industry, the skills of consultants make deal and revenue originally instead of the company (and boss) finds candidates or develop relationship with client. It is mostly depends on a consultant.

ARK Co., Ltd. has reduced business expenses to the limit from various angles. We aim to be a recruiting agency that the consultants can receive the maximum compensation to lead everyone's satisfaction including clients and candidates.

The consultants who should receive most of your sales as a compensation instead of receiving part of them, please feel free to contact to the followings.
