Overview

The Choose Japan College Fair focuses on post-secondary institutions in Japan that offer English-based or bilingual degree and diploma study options.

The intention is to provide students greater opportunity to learn about post-secondary international education choices within Japan; at the same time, the Fair provides institutions within Japan greater opportunity to present themselves to the community of International Schools in Tokyo and the Kanto region. We are inviting a handful of the top global Japanese universities to attend this event, as well as a selection of overseas colleges and vocational schools,

All Secondary students and their families are invited and encouraged to attend this event.
