

“We stand with Ukraine”

A month has passed since the Russian invasion of Ukraine began.

Many people in Ukraine are still living in uncertainty and are in need of assistance.

Many foreigners reside in our shared residences, and we hear their concerns for their families and friends. As a shared properties management company, what can we do to help?

• **We are providing rooms free of charge for 6months for Ukrainian.**

✂**English-speaking staff are available, and there are many foreign residents in each share house. You are never alone.**

If you know anyone who has evacuated or will be coming to Japan from Ukraine or Ukrainians residing in Japan and is in need of housing, please refer them to us.

To apply...

Please select a property eligible for the campaign in the property search to find a room, or contact us directly using the inquiry form of our website
