Leading AI company Quantum Solutions Co. Ltd. has announced a new partnership with TryAI Limited. TryAI has contributed ¥4,750,000 JPY and taken a 49% ownership stake in Quantum's subsidiary GPT Pals Studio Limited. TryAI, based in Hong Kong, specializes in AI application development, promotion, education, and operation.

Quantum Solutions Representative Director Mark Pink stated,

“Quantum Solutions is honored to welcome TryAI as a new investor in GPT Pals. This partnership marks a significant milestone, and we are excited about the opportunities this brings. The combination of TryAI's expertise and Quantum's strategic vision enhances the capabilities of both of our companies to deliver groundbreaking AI technologies that bring greater value to customers.”

Quantum will proactively develop and expand its AI tool portfolio in collaboration with TryAI. TryAI played a significant role in Quantum's development of recently-launched chatbot website GPT2338.JP.

In addition, Quantum subsidiary Fasteps Singapore Pte. Ltd. has made an additional investment of ¥4,750,000 JPY (\$250,000 HKD) into GPT Pals, resulting in 51% ownership. The combined capital injection of ¥9,500,000 JPY (\$500,000 HKD) into GPT Pals will provide investment to fuel future AI tool development. As the potential for future AI products continues to grow, the partners have committed to equally contributing additional investment in GPT Pals of up to ¥76,000,000 JPY (\$4,000,000 HKD).

This strategic partnership demonstrates Quantum's commitment to fostering innovation and growth among its group companies. By joining forces with TryAI, Quantum is strengthening its research and development capabilities and access to cutting-edge AI technologies. This collaboration will enable GPT Pals to deliver more advanced AI solutions to meet customer needs and expand its product portfolio.

The deepening of the partnership between Quantum and TryAI presents exciting possibilities to jointly develop AI-related tools and solutions, as well as explore and expand within the AI landscape.
