

Do You Have Any Concerns? Such As...

- Started to think about your health
- Feels your boots become tight in the evening
- Hard to lose weight recently
- Health problems specific to women
- Concerns about pelvis
- Still feel tired even after sleeping
- Easy to gain weight over the past few years
- Hard to make love with a partner
- Stiff shoulders and neck
- Blood pressure when you woke up

Do you happen to know ...?

In Japan, there are approximately 13.3 million Chronic Kidney Disease (CKD) patients, which is 1 out of 8 adults. It's becoming a new national disease. Renal failure is hard to detect by physiological function testing, so it's hard to cure in the early stage. If the kidney function doesn't work well, the waste products in the body will not be discharged easily and accumulating waste products may harm your health. Shall we make our body healthy inside from our body before it happens?

Shall we make our body healthy inside from our body before that?

# The Reasons why PREMIUM INUTOUKI Attracts Attention

ANGELICA SHIKOKIANA

## What Is The Miracle Grass "INUTOUKI" ?

INUTOUKI (Angelica Shikokiana) is a perennial plant belonging to Apiaceae angelica which only lives in Japan. The shape is similar, but it's completely different from Asian Ginseng which belongs to Araliaceae.

It was used as a medicine for perpetual youth and longevity for many years, especially in the Kyushu region and the mountainous area in the Shikoku region and it has become popular healthy food as a "Japanese Mountain Carrot" nowadays. Due to the high efficacy, one great clan-Satsuma, was prohibited to be brought out from their territory during the Edo period, so the efficacy is certain.

Also

INUTOUKI contains not only several types of vitamin, mineral and amino acid, but also YN-1 (\*1) which can expect a wide range of good effects.

(\*1) Supports your blood pressure stable and prevents boosting the blood sugar.

We are particular about how to grow it.

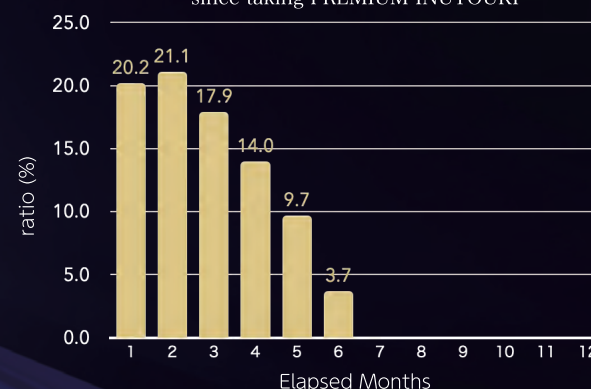

Cultivation and harvesting over 5 years

Each plants' "roots", "leaves" and "stem" have a different ratio of components depending on how old it is. From our experiments, the root of INUTOUKI which grew 5 years (5 years roots) has the most powerful effect and we stick to using it for PREMIUM INUTOUKI.

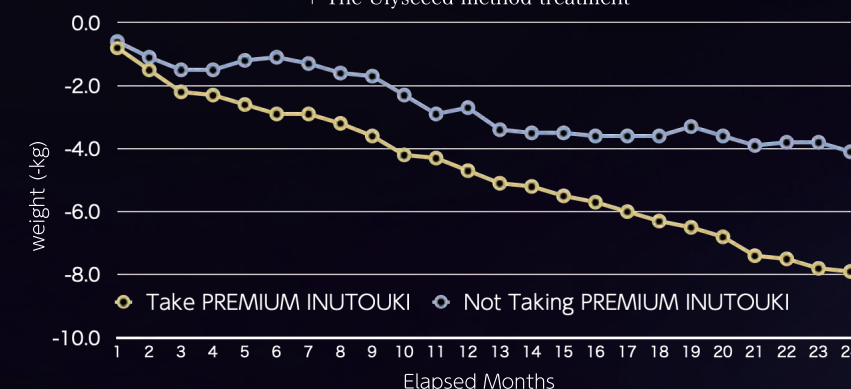

## From The Thesis "Utility of INUTOUKI"

[435 Testers] Percentage of weight gained since taking PREMIUM INUTOUKI

After taking INUTOUKI continuously for more than 7 months, the phenomenon of weight gain disappeared.

The Weight Difference By Taking PREMIUM INUTOUKI + The Ulyseed method treatment

In the Ulyseed method for comprehensive body slimming chiropractic, testers who continue to take PREMIUM INUTOUKI lose more weight than those who do not.

## How PREMIUM INUTOUKI Born

### 01 The reason why INUTOUKI can't be mass-produced

It takes 5 years to grow the powerful Angelica Shikokikan. After harvesting it, the land becomes poor and it will become hard to grow plants after a few years.

### 02 Commitment to ingredient and formulation

Using INUTOUKI 5 years roots 100%

ONLY using roots, not leaves and stems

Not using the similar plants, such as Angelica Furecujuga

We put effort into making solid to good condition, choose good seeds, plant and harvest, and get the trust from our customers and feel them safe to take it. We use ONLY roots of INUTOUKI which were planted for 5 years and taken good care of. After that we provide the product to the customer.

### 03 Commitment to ease of taking

Good medicine tends to taste bitter and that also can say to INUTOUKI. To solve that problem, the tablet of PREMIUM INUTOUKI become small.

#### What is MACA (Lepidium Meyenii)?

- The herb native to Peru, which called "The Queen of Andes"
- It's used for analeptic and recovering from the tiredness
- The efficacy for your health is shown in the literature. It works for such as sensitivity to the coldness, obesity, damaged skin (keep calm), agensis, menopause, and erectile dysfunction.

### 04 One and Only Power of the combination of INUTOUKI & MACA

PREMIUM INUTOUKI Original Arrangement

#### The Power of PREMIUM INUTOUKI & MACA

MACA which is 100% made in South Africa (12 tablets/day=1,500mg) supports modern people's power. PREMIUM INUTOUKI contains MACA and makes our body healthy and powerful.

### 05 That is why PREMIUM INUTOUKI of Ulyseed is chosen.

We have confidence in ingredients.

In term of price and quality, we have tested the use of leaves, roots, and similar species, as well as expensive 5 years roots INUTOUKI. As a result, we reached the conclusion that it had to be the INUTOUKI cultivated by our own technology. Ulyseed is particular about the development of 5 years roots' INUTOUKI. Therefore, the annual production volume is limited due to cultivation.

## Basic Way of Taking

Take 6-24 tablets (12-15 tablets are standard) every day

250-300 ml water or plain hot water is recommended

The best timing to take is on an empty stomach, just before going to bed, when waking up, between lunch and dinner, etc.

#### 1 Basic

12 tablets every day  
360 tablets/ month=2 bags

#### 3 Maximum

24 tablets every day  
720 tablets/ month=4 bags

#### 2 Recommendation

15 tablets every day  
450 tablets/ month=2.5 bags

#### 4 Minimum

6 tablets every day  
180 tablets/ month=1 bag

Controlling how much to take depends on your body health condition!

## The Message from The Developer

From the experience my health gets better by INUTOUKI, I spend 8 years developing my product.

It's a little pricey supplement, but I have confidence in the quality and volume. Please try "PREMIUM INUTOUKI" for 6-12 months for your health and beauty. I hope everyone feels the power of "PREMIUM INUTOUKI".
